

Managing Training & ROI through ISO 29993:2017 Workshop

INTRODUCTION

- Did you know that the ISO 29993:2017 is the specific quality assured standard for HR and L&D departments to certify the training / learning department as meeting international quality assurance standards? Achieving this standard will demonstrate that your organisation Learning and Development is working to the highest quality level, raise the bar in service delivery, provide an outstanding, effective and efficient service, as well as provide a quality mechanism for external provider engagement.
- The focus of this highly interactive Managing Training & ROI through ISO 29993:2017 workshop will be to walk you through the standards to assess your alignment of organisation learning in relation to ISO 29993:2017, in order to prepare and apply for assessment through an accredited ISO body. In addition, the participants will also learn the key factors involved in achieving ROI for your critical people development interventions. This is essential for those who are responsible for ensuring the correct engagement and quality assurance of learning in the organisation, as well as utilising mechanisms to maximize ROI.

This training workshop will highlight:

- The standards required and practical implications of achieving the ISO 29993:2017 standards
- Ensuring that proposed learning/training programmes are relevant and achieve quality assurance to support planned expenditure
- Using ISO 29993:2017 to structure the management of the learning/training department, quality assurance, policies and procedures
- Understanding of budget and financial planning methodologies, systems, and processes
- Key monitoring and evaluation metrics and data analysis, and demonstrating that ROI has been achieved
- Self-action planning to meet ISO 29993:2017 criteria

OBJECTIVES

By the end of this training workshop, participants will be able to:

- Utilise ISO 29993:2017 as the business quality standard to manage the department and engage external learning service providers
- Apply techniques for identifying business learning / training needs
- Develop and propose a business case for learning / training to meet strategic business objectives
- Analyse evaluation methods to aid the management and measurement of investment
- Create a self-developed Action plan for implementation of ISO 29993:2017 in preparation for assessment application

TRAINING METHODOLOGY

- This innovative Managing Training & ROI through ISO 29993:2017 workshop will utilize a variety of adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This will include highly interactive and engaging group and individual activities, case studies and worked examples. Delegates will be encouraged to interact and engage with the course by exploring, discussing and debating the findings and conclusions of the standards using their own work related experiences.
