

Effective Purchasing and Contract Negotiation Strategies

INTRODUCTION

- This Effective Purchasing and Contract Negotiation Strategies training seminar challenges the belief that anyone can purchase well, and within that belief everyone can negotiate effectively. Neither of these beliefs is true. Organisations large and small waste their energy and profit in this belief. This training seminar could prevent your organisation losing significant sums of money as it firstly establishes a solid understanding of the benefits good purchasing offers and how to create a function capable of delivering those benefits through organisational excellence.
- The second fundamental to achieving success is the ability to negotiate, not only with the marketplace but with internal departments e.g., Engineering, Production, Finance, and Safety functions. Unfortunately such negotiation is often delegated to those least able to deliver an effective outcome. This failure impacts upon the whole organisation resulting in reduced profitability and increased business risk, and an increase in personal stress and operational costs.
- The delegates are expected to compare their understanding of their capabilities against the key principles that support effective purchasing and to take away concepts and ideas that will benefit both their business and them personally.

This training seminar will highlight:

- The objectives of a well run purchase process and how to reach your internal customer. Establishing a basic understanding of the process of Negotiation
- Importance of getting the right specification to reduce both cost and risk. Evaluating potential suppliers and managing the supply chain
- Tenders & bid evaluation & analysing Price Cost and Value through financial management /analysis
- The purpose of a contract / Legal needs / Terms and Conditions. Preventing contract failure. Discovering your personal negotiation capability
- Obstacles to good negotiation. Tools of the successful negotiator. Essential elements of negotiation AND developing a personal action plan for improvement
